**Event Title:** One week Soft Skill Training Programme.

**Date:** 15<sup>th</sup> July 2019 to 18<sup>th</sup> July 2019

**Venue:** MCA Seminar Hall, P.G. Department of Computer Applications.

**Resource Person Details :** Ms.Varadlakshmi Heda

**Name of Co-ordinator :** Prof. Rupali Sherekar, Head PGDCA

**Objective:**

The main objective of the training programme was to make students ready for campus placements, develop effective communication skills, presentation skills. Make students self-confident individuals by mastering inter-personal skills, team management, and leadership skills.

**Topics Covered**

1. Interpersonal Skill & Confidence Building
2. Articulation
3. Group Discussion
4. Mock Interviews

P.G. Department of Computer Applications organized a one week Soft Skills training programme between 15<sup>th</sup> July 2019 to 18<sup>th</sup> July 2019 for MCAIII and MCA II year students. Ms. Varadlakshmi Heda was resource person for the training programme.

Training began with Interpersonal and Confidence building. In the training program, the students were taught about some good etiquette to be followed while attending interviews. Tips and guidelines for attending interview were also dealt in detail. A mock interview was also taken. Few frequently asked questions and the effective answers for those questions were discussed.

In the next session, trainer gave tips for writing attractive CV and also advised the things to be written in CV. Trainers also focused on what is group discussion, how to take part in group discussion, Dos and Don'ts in group discussion. After giving these tips students were made to take part in group discussions under the guidance of trainers.

On last day of the training, program concluded with feedback from students and vote of thanks by Coordinator.

P.G. Department of Computer Applications organized One day workshop on Rational Rose on 27<sup>th</sup> July 2019 for MCAIII year students. Prof. Rahul Papalkar ,Assistant Professor, PRMIT&R, Badnera was resource person for the workshop.

The workshop focus was on the visual development of object-oriented software systems that are inherently concurrent, distributed or real-time. This workshop promotes the use of the Rational Rose Real time toolset for all aspects of the software development lifecycle: from analysis to design, testing, debugging, configuration management, and deployment

## **"TECHNICAL TREASURE HUNT"**

**Organized by**

**Post Graduate Department of Computer Applications**

Phone: (0721) - 2580402/2681246

Fax No. 0721 - 2681337

Website : [www.mitra.ac.in](http://www.mitra.ac.in)

**Event Title:** Technical Treasure Hunt.

**Date:** 7 March 2020

**Venue:** P.G. Department of Computer Applications.

**Guest :** Dr.G.R.Bamnote , Head Computer Science,PRMITR

**Name of Co-ordinator :** Prof.A.J.Pimprikar  
Prof. N.D.Bobade

**Objective:**

The basic idea behind Technical Treasure Hunt was lots of fun with learns.

Treasure hunts necessitate that students work in teams, solving puzzles together, spanning out to look for clues and find the treasure. It teaches them to work together, interact with each other, understand what the other is saying and think about how to win the game as a team. It trains them to communicate better, to act responsibly in a team and to improve the very important requisite of social skills.

Treasure Hunt exercises the mind during problem-solving, also have a way of exercising the body. After all, students run hither and thither trying to solve the clues and find the items in the clue.

Rewards, discoveries and prizes bring a sense of achievement and with it come a boost in self-confidence. Cracking mysteries, solving puzzles and programs gives a high that few activities can. When hard work clicks and the students have an "a-ha!" moment their self esteem soars. That's exactly the kind of stuff we want to fill our students with.

Treasure hunt challenges the children to think and use their creativity to solve clues. If designed well, they will be compelled to think and use common knowledge to play well.

Treasure hunt are a unique, fun way, to get students develop numerous skills that they will require throughout their lives. It may take some hard work on teachers part, but the resulting benefits are countless and invaluable in the long run.

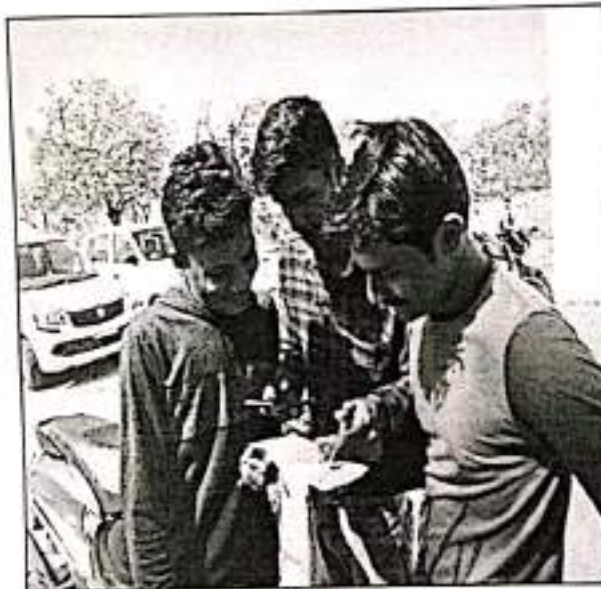

Technical Treasure Hunt was successfully conducted in the P.G. department of Computer Application of Prof. Ram Meghe Institute of Technology and Research Badnera on 7<sup>th</sup> March 2020. All the students of MCA I and II year participated actively.

Dr. G.R.Bamnote sir, Head Computer Sciene Dept, PRMITR was guest for the programme.

### Glimpses of Treasure Hunt

Technical treasure hunt consists of four rounds. Maximum Team size was three students.

**First Round** - Team leader Picked up chits that had riddle which directed them to the things in the department such as First Aid box, Suggestion box, podium etc.

**Second Round** - If students reached to the correct thing given in the riddle then they found next chits containing C++ program that generate vehicle no in the car parking area as output, Students executed program and reached the vehicle and found the next round chits.

**Third Round** - In this round students provided jumbled word that was the prominent places in the college such as canteen, library etc. students took lots of effort to arrange the jumbled word and found the proper places. In this round students got diverted to the different places in the premises to find the chit for final round.

Fourth Round - In final round student had chits containing jumbled words that directed them to single destination.

Each team had own different path as shown below.

**Event Title:** Wall Magazine 2020

**Date:** 7 March 2020

**Venue:** P.G. Department of Computer Applications.

**Guest :** Dr.D.S.Ingole , Dean Establishment ,PRMITR

**Name of Co-ordinator :** Prof.P.P.Deshmukh  
Prof. V.A.Sinha

**Objective:**

- To give scope for the students in creative writing,drawing.
- To provide a platform for displaying various talents.
- To give equal participation to all the students.
- To develop healthy competition among students

It was observed that students are not getting enough time for extra-curricular and co-curricular activities. Semester system has very less time for non-academic activities. It is felt that students are lagging, not getting enough space to express their creativities, ideas, writings or findings. We thought of providing a platform for the students. This gave rise to the concept of wall magazine.

Wall Magazine theme was given: - ‘Women’s Empowerment’
